European Winter Conference on Plasma Spectrochemistry

15.02. - 20.02.2009, Graz - Austria

1st Circular

organised in
cooperation with

Scope

Winterplasmagraz 2009 will comprise short focussed oral presentations and poster presentations highlighting recent developments in plasma spectrochemistry and their applications. The conference format has been designed to facilitate interactive discussion of the topical issues, and active participation by younger scientists.

Topics

- Fundamental plasma spectrochemistry
- Instrumentation: sources and spectrometers
- Sample introduction and sample preparation
- Laser-assisted plasma spectrochemistry
- Stable isotope measurements and isotope dilution analysis
- Certified reference materials
- Speciation analysis
- Applications (various fields: clinical; environmental; biological; forensic; industrial; geological; mining/exploration; advanced materials)

Scientific Committee

Jack Creed	Hiroki Haraguchi	Ryszard Lobinski
Joerg Feldmann	Gary Hieftje	Bill Maher
Kevin Francesconi	Norbert Jakubowski	Cameron McLeod
Walter Goessler	Guenther Knapp	Ralph Sturgeon
Detlef Guenther	Bernhard Kuczewski	

Deadlines

<u>Registration</u>		<u>Abstract Submission</u>	
until 31.08.2008	⇒	pre registration	Begin 01.07.2008
01.09. - 31.12.2008	⇒	normal registration	Deadline 30.11.2008
from 01.01.2009	⇒	late registration
